This line should be similar to the letter V with a curved bottom. Step 3: Draw two interlocking lines over your entire head as guides to help you set drift's facial features later. The horizontal line should be curved, and the vertical line should be straight. Step 4: On top of the head, on the side, draw two large arc-like shapes as ear handles on drift's mask. The sides of these arches should protrude a little, and the tips should be seedy. The ears on this Fortnite mask are large, so do not draw these shapes too small. That's all for guides!
